

## **Sian Turner – Governor – May 2020**

I have been a governor at Hilbre High School since 2019. I have worked in education for over 20 years and am currently an Executive Business Manager working across three secondary schools in south Manchester, working for a large Multi-Academy Trust overseeing all aspects of business support within schools: finance, HR, facilities, and office management. I know that this experience will be useful in my role as a governor to support the school and leadership team.

I live on the Wirral and am delighted to be able to use my experience to support a local school.
