

## **Emma Gunatilleke – Staff Governor – May 2020**

I have worked as a Music teacher at Hilbre High School for 16 years and love my job. There is nothing better than working with lively and bright young people - no day is ever the same! I feel incredibly fortunate to work with the dedicated and passionate staff here as we continuously strive to improve the experience of our young people and help each student to reach their potential. It has also, in recent years, been a pleasure to take on the role of Staff Governor and work alongside like-minded people who are determined to see students flourish in every way possible.
