

## **Jackie Forsey – Co-opted Governor**

I was appointed a Co-opted Governor in March 2017. I have worked in Secondary and Special Education for 38 years and I was delighted to join the Governing Body at Hilbre High School. The majority of my experience has been in the Hospital School sector both as a teacher and a senior leader. I have wide experience of teaching and supporting vulnerable young people, including school aged/teenage parents and children with a range of physical and mental health problems. I am passionate about ensuring that all young people and particularly those with a disadvantage, are provided with the best opportunities to thrive and achieve in school. I am committed to supporting young people in their learning and to supporting the School in providing these opportunities. Having grown up on the Wirral, I studied Biology and Psychology at Liverpool Hope University before training as a teacher. I have 6 grandchildren who are great fun. I enjoy walking, craft and gardening.
